

Glass SAE 10w30

API SN/LSAC GF-5

Product Data Sheet

Glass SAE 10w30 Passenger Car Motor Oil provides superb performance for today's gasoline powered cars, light trucks and vans. Glass Passenger Car Motor Oil is formulated with detergents and dispersants to promote clean engines with excellent control of sludge and other engine deposits that form because of high engine temperatures and combustion exhaust. A combination of high quality Group II base oils with modern additive technology including anti-wear agents, antioxidants and corrosion inhibitors provide for the maximum protection against engine wear to extend engine life.

Glass SAE 10w30

- ◆ Meets API SN and previous API gasoline specifications SM, SL, SJ, SH, and SG
- ◆ Meets ISLAC GF-5
- ◆ Provides resistance against viscosity breakdown in severe environments
- ◆ Flows easily at lower temperatures, reducing wear upon start up
- ◆ Provides excellent protection in critical turbo components
- ◆ Improves fuel economy in new as well as older vehicles
- ◆ Please be sure to check your owner's manual for proper SAE grade and classification

Typical Characteristics

<u>TEST</u>	<u>10W30</u>
Viscosity, CST @ 40°C	68.5
Viscosity, CST @ 100°C	10.4
Viscosity Index	139
API Gravity, 60°F	31.5
Flash Point, COC, °C	216
Pour Point, °C (°F)	-36° (-33°)
Cold Crank, cPs	7000 @ -25°

HAZARDS: "Empty" containers contain residue (liquid and/or vapor) and can be dangerous. Do not pressure, cut weld, braze, solder, drill, grind or expose such containers to heat, flame, sparks or others sources of ignition. "Empty" drums should be completely drained, properly bunged, and promptly returned to a drum reconditioner.

Avoid prolonged contact with skin and frequently change any clothing which may be soiled. In case of contact, wash thoroughly with soap and water for 15 minutes or until the irritation subsides. The formation of mists should be avoided. Do not take internally. If swallowed, do not induce vomiting. Call a physician of Poison Control Center immediately. Keep out of the reach of children.

The values shown here are representative of current production. Some are controlled by manufacturing specifications, while others are not. All of them may vary within modest ranges.
